Speakers

Ektor Grammatopoulos

Dr Grammatopoulos attended secondary school in Athens and completed his ultimate two years at Dulwich College under the Ishigaki Scholarship. He gained his Dental Degree from the University of Newcastle in 2004. Following further training in Restorative Dentistry, Paediatric Dentistry and Oral and Maxillofacial Surgery, he qualified as a Specialist Orthodontist in 2010 and Consultant Orthodontist in 2012. He was appointed Consultant in Orthodontics at Guy's and St Thomas' Hospitals and Honorary Senior Specialist Clinical Teacher at King's College London in 2012, remaining in the post until 2020. For over a decade he has trained Dentists, Specialists in Orthodontics and Consultants in Orthodontics.

His work has been awarded a variety of distinguished national and international prizes and awards from a number of highly recognised professional societies such as the European Orthodontic Society, British Orthodontic Society, Royal College of Physicians and Surgeons of Glasgow and British Society of Dental Research, including the prestigious European Orthodontic Society W.J.B. Houston Award.

He has a special interest in optimal smile aesthetics, non-extraction treatments and providing high-quality and efficient orthodontic treatment for children and adults. He is highly experienced in all modern techniques including Incognito lingual(hidden) and Invisalign appliances. His orthodontic clinic at the heart of central London is specialising in complex and multi-disciplinary cases in Orthodontics.

Simon J. Littlewood

Simon Littlewood is Consultant and Specialty Lead at Bradford Teaching Hospitals NHS Trust, Honorary Senior Lecturer at University of Leeds and also runs a small private practice. He is currently Honorary Secretary of the British Orthodontic Society and Chair of MFDS exam for RCS England. He is co-Director of the Yorkshire Orthodontic Therapy Course, and co-author of the best-selling textbook “

An Introduction to Orthodontics” 5th Edition. He is part of a multi-centre research group, headed up by Nicky Mandall focussing on early Class III treatment. He is well-known as an entertaining lecturer who has been invited to speak in over 35 countries.

Robbie Lawson

Robbie Graduated from Dundee University in 1989. House jobs in Dundee, Canterbury and Glasgow followed before taking his FDS RCS (Edin) in 1992. He undertook orthodontic specialty training with MScD at the University of Wales, passing his M.Orth RCS (Edin) in 1996, when he was awarded the William Houston Gold Medal. Since then, he has been in specialist orthodontic practice in Edinburgh, developing a keen interest in teaching lingual appliances worldwide. He has been chairman of the Scottish Orthodontic Specialists Group, President of the Royal Odonto-Chirurgical Society of Scotland and is an examiner at the Royal College of Surgeons of Edinburgh. He enthusiastically integrates lingual appliances into management of complex cases in his busy practice in Scotland's capital.

David Moreno

My passion for orthodontics started 26 years ago when I started working as a Sales Representative for 3M orthodontic products. After carrying out various assignments locally and internationally, I was appointed Head of Marketing Operations for Europe. I currently have the privilege of leading the 3M education for orthodontics in Europe. Every post has come with different challenges and achievements and I feel blessed to have enjoyed every post within 3M orthodontics. I am particularly passionate about my role within 3M orthodontic education. Through education, we discover trends in the market, what our clients require and how they would benefit from new products, and we educate our customers on appropriate and successful use of our new products.

Badri Thiruvengkatachari

Badri Thiruvengkatachari is an honorary Senior Lecturer at the University of Manchester and the Director of Research and Professor in Orthodontics at Sree Balaji Dental College, Chennai. He is an examiner for Bi-Collegiate MOrth Royal College of Surgeons of England and Glasgow, MFDS Royal College of Surgeons of Edinburgh and LDS Royal College of Surgeons of England.

He is heavily involved in teaching Orthodontics. He was the orthodontic course lead for undergraduates and a clinical and research supervisor for postgraduates and Specialist Trainees at University of Manchester for over 6 years. He is the recipient of the prestigious Rising Star award (2010) and the Chapman prize (2012) from the British Orthodontic Society for the best published research work and the acclaimed David Turpin award (2011) and B.F. and Helen E. Dewel (2012 & 2020) from the American Association of Orthodontists for the best clinical research in the field of Orthodontics. He holds grants from the Department of Biotechnology (India), Wellcome Trust (UK), Ministry of Health (India), Science and Engineering Board (India) and Sumbing Bibir for around £ 0.75 million. He is a reviewer for several international journals including the American Journal of Orthodontics (AJODO), the European Journal of Orthodontics and Angle Orthodontist and is an editorial board member for Orthodontics and Craniofacial Research journal. He has conducted many high quality multi centre Randomised Controlled Trials and has published several high-quality peer reviewed publications.

His area of interest has always been on Class II malocclusion and he has conducted several workshops, presented at various international and national conferences, and published several high quality research articles including the two Cochrane reviews.

Jay Rai

Jay is an Empowerment Therapist, specialising in the field of neuroscience and psychology of mental health. She supports people to unlock lifelong and impactful personal change using her unique blend of science, psychotherapy and Eastern mindfulness, enabling people to become mentally stronger. Jay left a highly successful career in the investment management industry to share her passion by teaching others the skills and strategies of Empowered Living. Her extensive experience includes working at the largest mental health centre in the UK, the Priory clinic. She is also a member of the British Neuroscience Association and Forbes Coaches Council. She has taken up invitations to speak at many organisations, including Google and Amazon.
